

Dear MRB and JuJu's Fans,

A top priority of ours is - and always will be - the safety of our community, including you. In light of evolving news around COVID-19 (coronavirus), we want to share the steps we are taking to minimize risk of contracting and spreading the virus to our valued guests.

- Limiting our hours to 4:30 to 7:30 for pick-up orders only Wednesday through Sunday. You can order food online at jujuscookery.com or come in to the brewery to order.
- Removed utensil, napkins, and condiments from public areas: one of our staff members will be happy to get you the items you need.
- Offering to-go/single serve condiments and utensils.
- Spacing tables at least 6 feet apart from each other to minimize cross-contamination between groups while waiting for food to be prepared to go.
- Cleaning high-touch areas more frequently: this includes areas such as bathrooms, display case, and door knobs and tables.
- Upholding our high cleaning standards: to minimize the risk of passing germs around.

While this doesn't cover the full extent of our health and food safety standards, we want you to know that safety while at our brewery and food truck as well as your experience as our guest is our top priority. We thank you for being a valued guest, supporting us during this time, and hope to see you soon.

All the best,

Mill River Brewing Co and JuJu's Craft Cookery
